

Students of the Month

The Renaissance Committee is proud to
Announce that the Students of the Month
Of May are:

Luke Bennett and Keith Walling

Luke has been a rock star all year in my TV Production class giving it his all for every class, every assignment, and every project. He has strived diligently to hit every high expectation I have and can roll with the punches when in a situation that might be less than ideal. Even in these times Luke never ceases to try his best and make something wonderful. With a modified school life, Luke continues to work hard, and make wonderful and amazing videos from home. He is an incredible example of the Raritan brand!

Keith has impressed me so much during our distance learning period. Understanding math does not come easily for him, but I have been blown away by his perseverance. He doesn't quit until he understands, and he seeks out help until he does. The results have been amazing and the amount that he has improved has been so great to see! Great job Keith!
