Dear Colleague;

As you are aware, we have partnered with Cenergistic, the nation's leader and pioneer in developing comprehensive and sustainable energy conservation programs. **This is an important program that will help us save jobs and programs in our schools.**

We are pleased to announce that Christopher Villa has been named our Energy Specialist to implement and manage our new energy conservation program.

He is focusing his efforts to ensure that our Energy Program is successful in allowing us to redirect much needed funds back into our classrooms. Christopher has already started training and working with our energy conservation partner, Cenergistic. Throughout the year — late at night, early in the mornings, and during holidays — Christopher will be in our buildings ensuring we are properly managing our energy resources.

The Energy Program is guaranteed by Cenergistic to save us money and is expected to generate a net savings of \$668,498 over the next five years. Success can only happen if we each do our part, and this includes supporting our Energy Specialist.

This program is extremely important to our school district and requires everyone's cooperation.

Our Board will be receiving regular updates on the progress of our Energy Program in the weeks and months ahead. We plan to keep you regularly informed on Program news and results as well.

Thank you in advance for your support of our Energy Program.

Sincerely,

Scott Ridley, Ed.D.
Superintendent of Schools
